DCHL among 20 top loan defaulters

Times News Network

Hyderabad: Deccan Chronicle Holdings Ltd (DCHL) is among the top 20 willful defaulters with outstanding loans running into Rs 700 crore, an RTI query revealed.

It may be recalled that DCHL, under the leadership of chairman T Venkatram Reddy and vice-chairman T Vinayak Ravi Reddy, pushed the company into a Rs 4,114 crore debt on account of fraudulent, negligent and deceitful financial management.

According to the Reserve Bank of India guidelines, a willful defaulter is, "a borrower that is able, but unwilling to pay, and has diverted loan proceeds for other than their initially stated purpose, or has overstated profits in order to obtain a loan."

Experts say owing to such fraudulent activity and pressure from political parties and the corporate sector to obtain loans, the 24 public sector banks are facing a big crisis.

Due to these pressures, the loans eventually turn into bad loans. By the end of the financial year 2013-14, the unpaid loan amount has risen to Rs 2 lakh crores (private, public and foreign banks, which are operational within the country), said M Padmanabha Reddy, secretary, Forum for Good Governance.

"What is alarming is that a handful of people have become defaulters with 80 percent of total bad loans from most of the banks," he said.

Also making its way onto the list is Sujana Universal Industries, which owes banks close to Rs 330 crore. The top 50 defaulters in the list owe 24 public sector banks a staggering Rs 40,528 crore.

The RTI query revealed how Kingfisher Airlines owe banks Rs 2,673 crore, among several other defaulters from across the country.

He further implied that when there are dues by big companies amounting to crores, it is the common man who has to bear the brunt of the debt burden. "Whenever there is a case of bad loans, the banks would have to cover up their loss by cutting down profits. But, ultimately the share value would be less than the book value. This would surely pinch the savings of retired people as they would be given a less percentage of interest," he added.

'Disclose names of bank defaulters'

Special Correspondent

HYDERABAD: Forum for Good Governance wants the Reserve Bank of India and Union Finance Ministry to come out every quarter with the list of bank loan defaulters (of over Rs.5 crore).

A not-for-profit organisation based in Hyderabad, it also wants bankers to be investigated for possible collusion with the defaulters.

Expressing concern at the pile of bad loans, of both public and private sector banks, office-bearers of the forum said it had highlighted to the Reserve Bank of India the need for also directing the banks to publish names of wilful defaulters.

Bad loans of banks in the country, as on March 31, 2014, stood at over Rs.2 lakh crore.

"What is alarming is less than one per cent of the borrowers have become defaulters with 80 per cent of (the) bad loans," the forum said in a release.
